- **Cloudflare:** Deploy to Pages, Utilize Edge Workers, CDN Configuration, Security Features
- **Linux (Debian):** Nginx Reverse Proxy, Command-line Proficiency, Package Management, File System Management, Cron Jobs

PROJECTS

Fullstackmike.io (*SvelteKit, TailwindCSS, Cloudflare*)

- Built a personal portfolio using SvelteKit and TailwindCSS.
- Integrated Zoho API for seamless contact form handling.
- Hosted on Cloudflare Pages with KV store for efficient data handling.

Dedicatedtoyourfreight.com (*WordPress, JavaScript, Apache*)

- Optimized WordPress site performance using W3 Total Cache.
- Developed custom JavaScript features for an enhanced user experience.
- Implemented Cloudflare turnstile reCAPTCHA for secure form submissions.

REST API Country Listing Web App (*Nuxt 3, Vuetify 3*)

- Created a Nuxt 3 web app to display countries with detailed information.
- Implemented API data fetching and filtering features for usability.

EDUCATION

Self-Taught

- Learning Path: PHP/MySQL -> HTML -> CSS -> JavaScript -> Git -> React -> Vue 3/Tailwind -> Nuxt 3 -> Cloudflare -> Sveltekit/Svelte
